ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

FIRST NATIONS WATER RIGHTS REPORT

BAND: Columbia Lake

ADDRESS: P. O. Box 130, Windermere, B. C., V0B 2L0

CHIEF: Joseph Nicholas

PHONE: 342-6301 **FAX:** 342-9693

AFFILIATION: Ktunaxa/Kinbasket

LOCATION:

The Columbia Lake Band occupy a 8,405 acre (3,401.5 hectare) reserve, Columbia Lake No. 3, located near the Town of Windermere. The reserve is bordered to the west by Windermere Lake and by the Columbia River.

The most recent population figures compiled by the Ministry of Finance indicate that the Columbia Lake Band has 108 persons living on Columbia Lake No. 3 as registered members. It's total population, including registered and non-registered members living on- and off-reserve, is reported as 217.

Located at the edge of the Rocky Mountains, the reserve sits at elevations ranging from 2,700 to 4,000 feet above mean sea level. Columbia Lake No. 3 experiences average daily temperatures ranging from lows of -15 degrees centigrade in January, to highs of between 16 and 20 degrees centigrade in July. Average rainfall for the area totals between 30 to 50 centimetres, annually.

Water courses of significance include:

- Lame Joe Brook - flows southwest through the northern portion of the reserve. Lame Joe Brook appears to terminate within the reserve boundaries.
- Lyttle Lake (Upper) - located on the mid-northeastern boundary of the reserve.
- Madias Creek (Sam's Creek) - enters the reserve in the mid-western border, flows west through the reserve and drains into Windermere Lake.

- Windermere Creek (Morrigeau Creek) - passes just above the reserves northern tip flowing southwest, and drains into Windermere Lake.

- Sophy Creek - enters the reserve on the northeast boundary, flows south and then west, and drains into Windermere Lake.

- Tatley Creek - enters the reserve on the southeast boundary, flows southwest through the reserve, and drains into the Columbia River via the Tatley Slough.

WATER ALLOCATIONS:

The water rights of the Columbia Lake Band have been determined by five actions of government over the years:

1) Allotments by the Indian Reserve Commissioners.

   Following confederation, the Province and the Dominion established an Indian Reserve Commission. The Commission was responsible for reserving lands for the Indians and for facilitating the transfer of the lands in question to Dominion authority. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with the lands. This practice was unique among Reserves in Canada, and the authority of the Commissioners to allot water rights has always been disputed by the Province.

2) Lieutenant Governor-in-Council, approval by Orders-in-Council, granting water rights.

3) Determinations of the Board of Investigation under the *Water Act*, 1914, in response to claims made by the Department of Indian Affairs. In it's rulings the Board often ratified water records through the issue of water licenses.

4) The granting of water licenses in response to Federal Government applications requesting authorization for the use of water on reserve lands.

5) Actions to amend licensed rights, pursuant to provisions in the *Water Act*.

HISTORY, CURRENT STATUS, AND NOTES:

The history, current status and notes for the water rights of the Columbia Lake Band with respect to Lame Joe Brook, Lyttle Lake (upper), Madias Creek (Sam's Creek), Windermere Creek (Morrigeau Creek), Sophy Creek and Tatley Creek are as follows:

Lame Joe Brook

History:

Aug 9, 1884 — A Minute of Decision (MOD) of the Indian Reserve Commission described a 8,320 acre reserve situated between the Lower Columbia Lake and the Rocky Mountains, Kootenay District, and allocated, for the use of the Upper Kootenay Indians (Columbia Lake included), all the water flowing through the reserve.

Lame Joe Brook appears to originate and terminate within reserve boundaries.

Jul 8, 1931 — In accordance with an application filed by the Superintendent General of Indian Affairs, the Comptroller of Water Rights issued Conditional Water License 10908, bearing a precedence date of February 28, 1931 and authorizing the diversion and use of up to 1,000 gallons of water per day for domestic purposes. The license was valid year round and the land upon which the license is appurtenant is specified as those parts of Columbia Lake Reserve No. 3, to the South of, and in the vicinity of, Lot 7155 and Lot 5107, Kootenay District.

Nov 24, 1933 — The Kootenay Indian Agent abandoned all rights and title to Conditional Water License 10908.

May 30, 1934 — In accordance with an application filed by the Superintendent General of Indian Affairs, the Comptroller of Water Rights issued Conditional Water License 12034 bearing a precedence date of December 6, 1933. The license authorizes the diversion of 1,000 gallons per day for incidental domestic and irrigation applications. The water is authorized for use from April 1st to September 30th and the appurtenant lands are defined as a 20 acre portion of the Columbia Lake Reserve No. 3 situated near District Lot 7155 and south of Sublot 111 of District Lot 4596, Kootenay District.

Mar 3, 1953 The Comptroller of Water Rights issued an Order to extend the time needed for the completion of the works and for making beneficial use of the water, as specified under Conditional Water License 12034.

Jul 19, 1954 The Comptroller of Water Rights issued an Order for Conditional Water License 12034 to extend the time needed for the completion of the works and for making beneficial use of the water authorized under this license.

Apr 12, 1957 The Comptroller of Water Rights issued an Order for Conditional Water License 12034 to extend the time needed for the completion of the works and for making beneficial use of the water authorized under this license.

Mar 24, 1958 The Comptroller of Water Rights issued an Order for Conditional Water License 12034 to extend the time needed for the completion of the works and for making beneficial use of the water authorized under this license.

Mar 1, 1962 The Comptroller of Water Rights issued Final Water License 17845 in substitution of Conditional Water License 12034. Final License 17845 bears a date of precedence of December 6, 1933 and authorizes the diversion and use of up to 50 acre feet of water per year for irrigation purposes. The water is authorized for use from April 1st to September 30th and the appurtenant lands are specified as Columbia Indian Reserve No. 3, of which 23.5 acres may be irrigated.

Jul 11, 1989 A memorandum was sent to the Comptroller of Water Rights by E. A. Shaw, technician, and Jim Brown, Allocation Section Head, regarding Final Water License 17845. On a field visit they reported that no irrigation had taken place for at least four years. Two dwellings were observed nearby so domestic use was determined to be a possibility.

Current Status:

Final Water License 17845, held by the Columbia Lake Band, is the only active license on Lame Joe Brook. Final License 17845 gives the Band first priority rights on the Brook.

The Water Survey of Canada has no streamflow records for Lame Joe Brook. Additional sources of water availability information were not located during the course of this investigation.

Notes:

1. The Columbia Lake Band's rights to the waters of Lame Joe Brook, as allocated by the Indian Reserve Commission, have not been formally recognized by the Province.

2. The issue of Final Water License 17845 (which substituted Conditional Water License 12034) resulted in a loss of rights, reducing authorization to 1,000 gallons of water per day for incidental domestic use, for the Columbia Lake Band.

3. There has been no recommendation regarding the cancellation of Final Water License 17845. Regional office correspondence indicates that the license is not being actively used for irrigation purposes.

Lyttle Lake (Upper)

History:

Nov 10, 1920 — In accordance with an application filed by the Kootenay Indian Agent, the Comptroller of Water Rights issued Conditional Water License 5189, authorizing the diversion and use of up to 50 acre feet of water, with no more than 2 acre feet authorized for application on any one acre. The license bears a date of precedence of June 4, 1920 and is valid April 1st through to September 30th. The appurtenant lands are defined as a 25 acre parcel comprising part of the Columbia Reserve No. 3.

June 10, 1926 — The Comptroller of Water Rights issued Final Water License 5304, in substitution of Conditional Water License 5189. Details for Final License 5304 are the same as on Conditional License 5189.

July 11, 1989 — A memorandum was sent to the Comptroller of Water Rights by E. A. Shaw, technician and Jim Brown, Allocation Section Head, regarding Final Water License 5304. Subsequent to a field visit they reported that no works were evident and no irrigation had taken place for many years (at least 4).

Current Status:

Final Water License 5304, held by the Columbia Lake Band, is the only active license on Lyttle Lake (Upper). Final License 5304 gives the Band first priority rights on the Lake.

The Water Survey of Canada has no streamflow records for Lyttle Lake (Upper). No other sources of current water availability information were located during this review.

Notes:

1. There has been no recommendation regarding the cancellation of Final Water License 5304. Regional office correspondence indicates that the license is not being actively used for irrigation purposes.

Madias Creek (Sam's Creek)

History:

Aug 9, 1884 — A Minute of Decision (MOD) of the Indian Reserve Commission described a 8,320 acre reserve situated between the Lower Columbia Lake and the Rocky Mountains, Kootenay District, and allocated for the use of the Upper Kootenay Indians (including Columbia Lake), all the water flowing through the reserve.

Madias Creek (Sam's Creek) flows through the reserve and drains into Windermere Lake.

Aug 8, 1896 — The Lieutenant Governor-in-Council approved an Order granting water rights under the authority of Section 52 of the Land Act for the use and benefit of St. Mary's, Tobacco Plains, Columbia Lake and Shuswap Bands. As it pertains to Sam's Creek (Madias Creek), the Order allocates 200 inches* of water per day for the use of the Columbia Lake Band. 200 inches is equivalent to an annual allocation of 1112 acre feet.

* Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. Calculating this rate of flow over a 120 day irrigation season converts to the equivalent 6.664 acre feet per miner's inch.

Aug 26, 1921 At a final hearing of the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to water use rights on Sophy, Sam's (Madias) and Tatley Creeks was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 1621, set out that a conditional license should be issued which would:

(i) provide for the diversion of water from Sophy, Sam's (Madias) and Tatley Creeks;
(ii) take precedence from the 23rd day of September 1896; and
(iii) authorize the diversion of a maximum of 2900 acre feet of water per year for the irrigation of 1160 acres of the Lower Columbia Lake Reserve No. 3, and for domestic purpose, the use of up to 15,000 gallons of water per day from any of the said sources.

Jan 25, 1924 The Comptroller of Water Rights issued Conditional Water License 7373, which embodied the terms and conditions set out in Board Order 1621.

Feb 7, 1939 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time for completion of works and putting the water to beneficial use, as required under Conditional License 7373.

Aug 19, 1954 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time for completion of works and for making beneficial use of the water, as required under Conditional License 7373.

Jan 4, 1982 In accordance with an application filed by the Department of Indian Affairs and Northern Development for a change of works on Conditional License 7373, and having received a request to apportion this license, the Comptroller of Water Rights issued Conditional License 56279 in partial substitution of Conditional License 7373 under sections 15 and 17 of the *Water Act*, to the Minister of Indian and Northern Affairs. The license bears a date of precedence of September 23, 1896 and authorizes the diversion and use of up to 1,355 acre feet per year for irrigation purposes and up to 7,000 gallons per day for domestic use, out of Madias Creek. The irrigation portion of the license is valid from April 1st to September 30th and the domestic portion of the license is valid year round.

The appurtenant lands are defined as the Lower Columbia Lake Reserve No. 3, Kootenay District, of which 542 acres may be irrigated.

Nov 14, 1984 The Comptroller of Water Rights issued Conditional Water License 61562 in substitution of Conditional Water License 56279. The pertinent details for this new license are the same as Conditional License 56279, except clause (d) amends the purpose of the license to specify irrigation and waterworks. In addition, clause (h) specifies that when required by the Regional Water Manager the licensee will use a ditch to convey the water from the point of diversion to the place of use and shall discontinue the use of any pipeline. The amendment was initiated because it was determined that the implementation of the pipeline would cause undue hardship to the Band.

Jul 11, 1989 A memorandum was sent to the Comptroller of Water Rights by E. A. Shaw, technician and Jim Brown, Allocation Section Head regarding Conditional Water License 62562. Subsequent to a field inspection of the site they reported that the works were in poor shape and no irrigation use was evident. They presumed (but not confirmed) that four dwellings in the area were using 2,000 gallons of water per day for domestic use and estimated that the irrigation portion of the license and 5,000 gallons of water per day of the domestic portion, had not been used for seven years.

Current Status:

Conditional Water License 61562, held by the Columbia Lake Band, is the only active license on Madias Creek (Sam's Creek). Conditional License 61562 gives the Band first priority rights on the Creek.

The Water Survey of Canada has no records of streamflow for Madias Creek (Sam's Creek). No other current sources of information with regard to water availability were located.

Notes:

1. The Columbia Lake Band's rights to the waters of Madias Creek, as allocated by the Indian Reserve Commission, have not been formally recognized by the Province.

2. The water allocation approved by the Lieutenant Governor-in-Council is not equal to the amount of water currently allotted by license, to the Columbia Lake Band.

3. There has been no recommendation regarding the cancellation of Conditional Water License 62562. Regional office correspondence indicates that the license is not being actively used for irrigation purposes.

4. By virtue of its purpose (Irrigation and Waterworks) Condition License 62562 qualifies the Madias Creek drainage area for the designation 'Community Watershed' under provisions contained in the Forest Practices Code.

Sophy Creek

History:

Aug 9, 1884 — The Minute of Decision of the Indian Reserve Commission described a 8,320 acre reserve situated between the Lower Columbia Lake and the Rocky Mountains, Kootenay District, and allocated to use of the Upper Kootenay Indians (Columbia Lake) all the water flowing through the reserve. Sophy Creek flows through the reserve to drains into Windermere Lake.

Aug 8, 1896 — The Lieutenant Governor in Council approved an order granting water rights under the authority of Section 52 of the Land Act for the use and benefit of St. Mary's, Tobacco Plains, Columbia Lake and Shuswap Bands. As it pertains to Sophy Creek, the Order allocates 200 inches* of water per day, equivalent to 1222 acre feet, for the use of the Columbia Lake Band.

* Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. Calculating this rate of flow over a 120 day irrigation season converts to the equivalent 6.664 acre feet per miner's inch.

Aug 26, 1921 At a final hearing of the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to water use rights on Sophy, Sam's (Madias) and Tatley Creeks was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 1621, set out that a conditional license should be issued which would:

(i) provide for the diversion of water from Sophy, Sam's (Madias) and Tatley Creeks;
(ii) take precedence from the 23rd day of September 1896; and
(iii) authorize the diversion of a maximum of 2900 acre feet of water per year for the irrigation of 1160 acres of the Lower Columbia Lake Reserve No. 3, and for domestic purpose, the use of 15,000 gallons of water per day from any of the said sources.

Jan 25, 1924 The Comptroller of Water Rights issued Conditional Water License 7373, which embodied the terms and conditions set out in Board Order 1621.

Feb 7, 1939 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time authorized for the completion of works and for making beneficial use of the water, as required under Conditional License 7373.

Aug 19, 1954 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time authorized for the completion of works and for making beneficial use of the water, as required under Conditional License 7373.

Jan 4, 1982 In accordance with an application filed by the Department of Indian Affairs and Northern Development for a change of works on Conditional License 7373, and having received a request to apportion the license, the Comptroller of Water Rights issued Conditional Water License 56278 in partial substitution of Conditional License 7373. Conditional License 56278 bears a date of precedence of September 23, 1896 and authorizes the diversion of 475 acre feet of water per annum for irrigation purposes and 2500 gallons of water per day for domestic use from Sophy Creek. The irrigation portion of this license is valid from the 1st of April through to September 30th, while the domestic allotment is valid

year round. The appurtenant lands are defined as the Lower Columbia Lake Reserve No. 3, Kootenay District, of which 190 acres may be irrigated.

Nov 14, 1984 The Comptroller of Water Rights issued Conditional Water License 61561 in substitution of Conditional Water License 56279. The pertinent details for the new license are the same as Conditional License 56278, except clause (j) specifies that when required by the Regional Water Manager the licensee will use a ditch to convey the water from the point of diversion to the place of use and shall discontinue the use of any pipeline. The amendment was initiated because it was determined that the implementation of the pipeline would cause undue hardship to the Band.

Current Status:

Conditional Water License 61561, held by the Columbia Lake Band, is the only active license on Sophy Creek. Conditional License 61561 is first in priority on the Creek.

The Water Survey of Canada has no streamflow records for Sophy Creek. No additional sources of water availability data were located during this review.

Notes:

1. The Columbia Lake Band's rights to the waters of Sophy Creek, as allocated by the Indian Reserve Commission, have not been formally recognized by the Province.

2. The water allocation approved by the Lieutenant Governor-in-Council is not equal to the amount of water currently allotted through licensing, to the Columbia Lake Band.

Tatley Creek

History:

Aug 9, 1884 A Minute of Decision of the Indian Reserve Commission described a 8,320 acre reserve situated between the Lower Columbia Lake and the Rocky Mountains, Kootenay District, and allocated for the use of the Upper Kootenay Indians (including the Columbia Lake Band), all the water flowing through the reserve.

Tatley Creek flows through the reserve to drains into the Columbia River.

Aug 8, 1896 The Lieutenant Governor in Council approved an Order granting water rights under the authority of Section 52 of the Land Act for the use and benefit of St. Mary's, Tobacco Plains, Columbia Lake, and Shuswap Bands. As it pertains to Tatley Creek, the Order allocates 200 inches of water per day, equivalent to 1112 acre feet, for the use of the Columbia Lake Band.

* Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. Calculating this rate of flow over a 120 day irrigation season converts to the equivalent 6.664 acre feet per miner's inch.

Aug 26, 1921 At a final hearing of the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to water use rights on Sophy, Sam's (Madias) and Tatley Creeks was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 1621, set out that a conditional license should be issued which would:

(i) provide for the diversion of water from Sophy, Sam's (Madias) and Tatley Creeks;

(ii) take precedence from the 23rd day of September 1896; and

(iii) authorize the diversion of a maximum 2900 acre feet of water per year for the irrigation of 1160 acres of the Lower Columbia Lake Reserve No. 3, and use of 15,000 gallons of water per day from any of these sources for domestic purpose.

Jan 25, 1924 The Comptroller of Water Rights issued Conditional Water License 7373, which embodied the terms and conditions set out in Board Order 1621.

Feb 7, 1939 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time authorized for the completion of works and for making beneficial use of the water, as required under Conditional License 7373.

Aug 19, 1954 In accordance with an application filed by the Indian Agent for the Cranbrook Region, the Comptroller of Water Rights issued an Order extending the time authorized for the completion of works and for making beneficial use of the water, as required under Conditional License 7373.

Jan 4, 1982 In accordance with an application filed by the Department of Indian Affairs and Northern Development for a change of works on Conditional License 7373, and having received a request to apportion this license, the Comptroller of Water Rights issued Conditional Water License 56280 in partial substitution of Conditional License 7373. This new license bore a date of precedence of September 23, 1896 and authorized the diversion of 1,070 acre feet of water per annum for irrigation purposes and 5,500 gallons of water per day for domestic use Tatley Creek. The irrigation portion of the license is valid from the 1st of April through to September 30, while the domestic portion of the license is valid year round. The appurtenant lands are specified as Lower Columbia Lake Reserve No. 3, Kootenay District, of which 428 acres may be irrigated.

Accompanying Conditional Water License 56280 was Permit No. 12996 which authorizes the occupation of 0.45 acres of Sublot 122 of Lot 4596, Kootenay Land District.

Nov 14, 1984 The Comptroller of Water Rights issued Conditional Water License 61563 in substitution of Conditional Water License 56280. Conditional License 61563 contains the same details as Conditional License 56280 except that it allots 5,500 gallons of water per day for waterworks purposes instead of domestic, and requires that when asked by the Regional Water Manager, the licensee shall use ditches to convey water from the point of diversion to the place of use, discontinuing the use of any pipeline. The amendment was initiated because the implementation of the pipeline was determined to have the potential to cause undue hardship to the Band.

Accompanying Conditional Water License 61563 was Permit No. 14606. Permit No. 14606 authorizes the occupation of 0.45 acres of Sublot 122 of Lot 4596, Kootenay District.

Current Status:

Conditional Water License 61563 held by the Columbia Lake Band is the only active license on Tatley Creek. This gives the Columbia Lake Band first priority rights on Tatley Creek.

The Water Survey of Canada has no streamflow records for Tatley Creek and there is no other current information on file with regard to water availability on the Creek.

Notes:

1. The Columbia Lake Band's rights to the waters of Tatley Creek, as allocated by the Indian Reserve Commission, have not been formally recognized by the Province.

2. The water allocation approved by the Lieutenant Governor-in-Council is not equal to the amount of water currently allotted, under license, to the Columbia Lake Band.

Windermere Creek (Morrigeau Creek):

History:

Aug 8, 1896 — The Lieutenant Governor-in-Council approved an Order granting water rights, under the authority of Section 52 of the Land Act, for the use and benefit of the St. Mary's, Tobacco Plains, Columbia Lake and Shuswap Bands.

As it pertains to Windermere Creek (Morrigeau Creek), the Order allocates 100 inches of water per day, equivalent to 556 acre feet, for the use of the Columbia Lake Band.

Aug 26, 1921 — At a final hearing of the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to water use rights on Windermere Creek was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 1604, set out that a conditional license should be issued which would:

(i) provide for diversion of water from Windermere Creek;
(ii) take precedence from the 23rd day of September, 1896; and
(iii) authorize the diversion of a maximum of 675 acre feet of water per year for the irrigation of 270 acres of the northerly portion of Columbia Lake Reserve No. 3, and up to 5,000 gallons per day for domestic use.

Jan 25, 1924 The Comptroller of Water Rights issued Conditional Water License 7372, which embodied the terms and conditions set out in Board Order 1604.

Jan 15, 1935 The Comptroller of Water Rights issued Final Water License 9093 in substitution of Conditional License 7372, to the Department of Indian Affairs. Conditional License 7372 was assigned a date of precedence of September 23, 1896, and authorizes the diversion and use of up to 332.5 acre feet of water per year of which 2,000 gallons per day may be used for domestic purposes. The irrigation portion of the license is authorized for use from April 1st through to September 30th while the domestic portion is valid year round. The appurtenant lands are specified as 133 acres of the Lower Columbia Lake Reserve No. 3.

Nov 28, 1958 In accordance with a change of works application filed by the Columbia Lake Band, regarding Final Water License 9093, the Comptroller of Water Rights issued an Order under Section 13 of the *Water Act* amending the authorized works to include a concrete dam, a flume and a ditch.

May 24, 1985 The Columbia Lake Band made an application for a change of works on Final Water License 9093, proposing a pipeline from Windermere Creek.

Jan 21, 1987 The Comptroller of Water Rights wrote to the Columbia Lake Band to inform them that their application for change of works was refused due to non-beneficial use of the water for several years. Additionally, the Comptroller gave the Band notice of his intention to cancel Final Water License 9093 due to the Band's failure to make beneficial use of the water for three successive years.

Mar 19, 1987 The Comptroller of Water Rights received a letter from Peter J. Cartwright, community Planner, regarding the proposed cancellation of final Water License 9093. Cartwright stated that the Columbia Lake Band had intended for some time to irrigate approximately 80 acres of reserve land for agricultural purposes, but were awaiting plan revisions. The Band appealed the Comptrollers proposed cancellation and requested a three month extension of the cancellation appeal period. The Band additionally proposed a license-sharing scenario, in which the license would be shared by other interested parties.

Mar 23, 1987 The Comptroller of Water Rights received a letter from Karl Maier, District Forester, regarding the proposed cancellation of Final Water License 9093. Maier requested that the license not be canceled as a proposed irrigation project (awaiting funding) was dependent on water from Final License 9093.

May 14, 1987 The Comptroller of Water Rights received a memo from J. H. Dyck, P. Engineer, stating that he saw no justification for retaining any portion of Final Water License 9093 and recommended that the cancellation of this license be continued.

Mar 28, 1989 The Department of Indian and Northern Affairs wrote a letter expressing their concern over the intended cancellation of Final Water License 9093 and stated their support of the Columbia Lake Band in their desire not to have the license canceled.

Jun 15, 1989 The Comptroller of Water Rights received a letter from Lucille Shovar, the Columbia Lake Band Administrator, requesting a personal meeting to discuss the pending cancellation of Final Water License 9093.

Aug 17, 1989 The Comptroller of Water Rights called an oral hearing pursuant to Section 20 of the *Water Act*, between representatives of: J. Dyck, Regional Water Manager, Elkhorn Ranch Ltd., the Columbia Lake Band, the Department of Indian and Northern Affairs and any witnesses the above mentioned parties wished to include, to determine whether the alleged grounds for cancellation of Final Water License 9093 were substantiated. Once the oral hearing was completed, an on-site inspection of the creek, the land associated with the licenses, authorized works and other affected lands by the Deputy Comptroller was proposed.

Sep 15, 1989 An oral hearing was held by the Deputy Comptroller of Water Rights, J. E. Farrell, regarding the proposed cancellation of Final Water License 9093. The decision was made to adjourn this hearing for six months due to the legal complexity of the issue, allowing the Columbia Lake Band and the Department of Indian Affairs time to make the necessary preparations for the hearing.

Feb 5, 1990 The Columbia Lake Band filed an action in the Supreme Court of British Columbia seeking an injunction. The Band contended that its water rights were granted in perpetuity and not subject to the cancellation provisions of the *Water Act*.

May 28, 1990 In a letter from Livia Meret, legal advisor to Jack E. Farrell, Deputy Comptrollers, it was stated that in light of the action commenced by the Columbia Lake Band, it was decided that the cancellation hearing would be further adjourned pending the outcome of the commenced litigation.

Mar 25, 1993 An out-of-court settlement agreement was made between the Columbia Lake Band and the Province of British Columbia. The Province agreed to pay for the legal fees incurred by the Band as a result of the cancellation case and to establish a water reserve.

Dec 15, 1993 The Lieutenant Governor-in-Council, by Order-in-Council No. 1695, reserved all of the unrecorded waters of Windermere Creek and its tributaries from being taken, or used, or acquired, under the *Water Act*, in order that the Columbia Lake Band may investigate the suitability of Windermere Creek for irrigation, waterworks or domestic purposes.

Current Status:

There are currently 39 licenses active on Windermere Creek. Conditional Water License 9093 is the only license held by the Columbia Lake Band, and it ranks 24th in priority right on the water source. Conditional License 9093 is still in cancellation pending status. Of the other licenses on Windermere Creek:

- 29 authorize the use of water for irrigation purposes ranging from 1.25 acre feet per annum to 250 acre feet per annum;
- 4 authorize the use of water for domestic purposes, each in the amount of 500 gallons of water per day;
- 3 authorize the use of water for both domestic and irrigation purposes, all in the amounts of 500 gallons of water per day for domestic use and ranging from 125 acre feet per annum to 502 acre feet per annum for irrigation use;

- 1 authorizes the joint use of 500 gallons per day for stock watering and 36.75 acre feet per annum for irrigation use; and
- 1 authorizes 2.5 acre feet per annum for watering purposes.

Water Survey of Canada records show that gauging station No. 08NA024 was in operation between 1914 and 1979. Records to 1979 indicate that for the period recorded, Windermere Creek experienced a low mean monthly flow in April of 0.311 cubic metres per second (equivalent to 5.914 million gallons a day), increasing to a high of 0.968 cubic metres per second (equivalent to 18.41 million gallons a day) in June.

Windermere Creek remains subject to the Water Reserve established in Dec. 1993.

Notes:

1. The proposal to cancel Conditional Water License 9093 has not been withdrawn.

2. The Comptroller initiated the proposed cancellation of Final Water License 9093 in order to make water available for an application by Elkhorn Ranch (4001004).

3. The application for change of works by the Columbia Lake Band has not been re-activated.

OTHER INFORMATION:

Groundwater Records:

A review of well records maintained by the MELP - Groundwater Section found that 31 wells have been reported on Columbia Lake Reserve No. 3. Most of the wells yield small amounts of water, ranging from 4 to 25 gallons per minute, however, two of the wells produce 100 gallons of water per minute. The extent to which these wells are utilized at this time is unknown. Further details have been appended to the report.

As the provision of well information to the Groundwater Section is voluntary, this review should not be assumed to be complete.

On a Memorandum from the Honourable the Chief Commissioner of Lands and Works, dated 12th August 1896, enclosing a report from the Government Agent for East Kootenay District upon the application of Mr Indian Agent Galbraith for a grant of certain water rights under authority of Section 32 of the Land Act for the use and benefit of the StMary's, Tobasco Plains, Columbia Lakes and Shuswap Bands of Indians.

And recommending that the Government Agent be authorized to record the said water rights upon the conditions he advises.

The Committee advise approval

Thos E. Pooley

President of Executive Council

Approved 13th August, 1896.

Theodore Davie C.J.

Administrator

In the matter of an application for a water grant of a thousand miner's inches from various streams as detailed below for the term of perpetuity. Such water to be taken from its source and to be carried in ditches or flumes as detailed below and to be used by the respective Owners for mining purposes on their respective claims

Band of Indians	Source of water	Number of Inches	Point of Diversion	Name of Owner whose claim will be supplied by the ditch or flume	Class
St Mary's	St Mary's River	400	One mile above Depot		B
"	Cherry Creek	100	From Cherry Creek Right bank	Peter Argle	B
Tobacco Plains	H. Phillips	200	From lake on H. Phillips pre-emption	Owner of Phillips, Adams, Hudson, Rodgers and Mary Lake Co.	B
"	Perron	200	On Perron		B
"	Gerow	100	On Gerow		
Columbia Lake	Mayenpenn	100	From Cherry Creek Upper Left bank	Walter Lyons	B.C
"	Tobby	200	On Perron		C
"	Samel	200	On Perron		C
"	Sophy	200	On Perron		C
Shuswap	Shuswap	100	From the Landing on river	John Lambert	B.C
"	Lake on Pinkut	100	On Perron		B.C

I would report that I have not examined the Streams taken any evidence on oath but that from information derived from the Indian Agent and other persons I believe

1° The provisions of the Land Act relating to notice of application to divert and record will have been complied with

2° Notices concerning those quantities of water marked B in the above table were published in the British Columbia Gazette for the sixty days commencing on the 30th day of April 1896 and in the Kootenay Mail Rocky Mountain Prospector for the same days commencing the 25th day of April 1896

3° Notice concerning those quantities of water marked C in the above table were published in the British Columbia Gazette for the 60 days commencing 20th June 1889, and also in the Victoria Weekly Times of about the same date. No newspaper was then published in the

4 The water applied for with the exception of part of that from St Mary River and all of that from Cherry Creek has been used by the respective Indians for many years and ditches and flumes have been constructed but no grants have been received.

5 No damage is likely to accrue from the diversion for, to the land owners or other persons having water rights on the streams mentioned.

6 The volume of water in the streams mentioned is sufficient for the cultivated land in the vicinity

7 The quantity of water applied for is necessary and reasonable

I would further report that on the 8th day of June 1896 I sent by registered letter prepaid a copy of the notice mentioned in section 40 to Peter Argyle, William Phillips, Walter Fegan and John Lambert and on the 31st day of July I sent a similar notice to the Columbia and Kootenay Railway and Navigation Company Vancouver, a copy of which is hereto

I would recommend that the water rights be granted on condition that the irrigation ditches or flumes be properly covered wherever they cross public roads

Dated at Donald B.C. 8th August 1896

J. F. Hamilton
Assistant Commissioner of
Lands and Works.
District of East Kootenay.

Notice

Kootenay Indian Agency

A list of Water privileges submitted for Record being the quantities of Water required for all time to Come, for irrigating purposes by the under-named bands of Indians:-

St. Mary's Band

Four hundred inches of Water to be taken into a ditch or flume from St. Mary's River on the north side, at a point about a mile below St. Mary's Bridge, the direction of the ditch will be East.

One hundred inches out of Cherry Creek to be taken into a ditch or flume near the head of the Peter Bayle's ditch, and following its line until it reaches the bench land, thence south to the Indian Reserve.

Tobacco Plains Band

Two hundred inches from a Creek crossing the old Kootenay Phillipps' pre-Emption, and to be taken into a ditch near his house say, thence south thro' the Reserve.

Two hundred inches from Reserve Creek at a point where the Creek emits at the foot of the Mountain thence West to Reserve.

Columbia Lake Band

One hundred inches out of Marysam Creek to be taken into a ditch near the Jesuit thence south and West near the Rogers farm to Reserve.

Shuswap Band

Six hundred inches to be taken into a ditch out of Shuswap Creek, about a quarter of a mile East of Wagon Road thence West and South thro the Reserve.

One hundred inches from Lilac Creek about a quarter of a Mile East of Wagon Road thence West thro' Indian Reserve.

Fort Steele B.C.
April 15th 1896.

R. L. T. Galbraith
Indian Agent

NOTICE

Notice is hereby given, that thirty days after this date, the Indian Agent will apply for a grant of two hundred inches of water, from a creek running through William Phillipps' pre-emption, for the term of perpetuity, said water to be used for irrigation purposes by the Tobacco Plains Band of Indians on their Reserve and is to be diverted from its course at a point on William Phillipps' pre-emption one quarter of a mile south of the residence of William Phillipps and will be carried in a ditch or flume over land belonging to William Phillipps, to the Canadian Pacific Railway, and the Indian Reserve And one hundred inche from "Sand" Creek to be taken near the east boundary of the Indian Reserve at Tobacco Plains.

Fort Steele B.C. Agent

April 15th 1896

A copy of the above notice was made at the Columbia and Kootenay Railway and Navigation Co. Van couver B.C. on the 8th day of July 1896

ORDER OF THE LIEUTENANT GOVERNOR IN COUNCIL

Order in Council No. 1695 , Approved and Ordered DEC. 15 1993

Lieutenant Governor

Executive Council Chambers, Victoria

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and consent of the Executive Council, orders that the unrecorded waters of Windermere Creek, and its tributaries, which drain into Windermere Lake in the Golden Water District are hereby reserved from being taken, or used, or acquired under the Water Act in order that the Columbia Lake Indian Band may investigate the suitability of Windermere Creek for irrigation, waterworks, and domestic purposes.

ATTACHMENT 3

PROVINCE OF BRITISH COLUMBIA. **WATER RIGHTS BRANCH.** DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE
(IRRIGATION)

Appurtenant to 25 acres of Columbia Kootenay Indian Reserve No. 3.

WHEREAS R.L.T. Galbraith (Indian Agent), whose post-office address is Fort Steele, B. C.

as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use water in the manner hereinafter set out, and has taken all the preliminary steps required of such applicant under the "Water Act, 1914," prior to the issue of this licence, and is, under the said Act, entitled thereto:

(1.) Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the licensee thereunder the right to take and use water under the following terms and conditions:—

(a.) The source of the water-supply is Lytle Lake a tributary of Columbia River.

(b.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria.

(c.) The date from which this licence shall take precedence is 4th June, 1920.

Superseded by 3-3222 Final Licence

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water which may be used at the place of use when all the lands mentioned in item (g) hereof are under irrigation is, until lawfully altered, 50 acre-feet per annum; and the maximum quantity which may be used per acre at the said place of use in any year is 2 acre-feet: Provided that if any records have been issued, or if any other licences have been or may hereafter be issued, for the use of water upon the said lands, the maximum quantity allowed under this licence shall be reduced by such quantities as may from time to time be used upon the said lands under such other records or licences, including the records or licences at present outstanding, namely, Licence No. ——— from ——— (Stream.) and Licence No. ——— from ——— (Stream.)

And provided further that in such cases the Comptroller may, after the requisite hydrographic data have been accumulated for determining the particular quantity of water which may be used under this licence, require the surrender thereof for the purpose of readjustment, and may amend the same by stating therein such particular quantity so determined. The maximum quantity which may be diverted from the stream per annum is 2 acre-feet per acre of land irrigated and an additional amount for reasonable seepage and evaporation.

And provided further that there may be used in addition ——— gallons of water per day throughout the whole year for domestic purposes as being incidental to the irrigation purpose.

Form 1064. W.R.B. (Conditional Licence—Irrigation).—1,000-6-20.

Licence Number 5189

ORIGINAL

(f.) The period of the year during which the water may be used is 1st April to 30th September.

(g.) The area and description of the irrigable lands to which this right may extend on completion of works and beneficial use of the water in the irrigation of the said lands are 25 acres, comprising part of Columbia Kootenay Indian Reserve No. 3.

The extent and location of the said irrigable lands are further shown in the said exhibit "A."

(h.) The other terms and conditions respecting the right are:—

(1.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached and hereby made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(2.) The said construction shall be commenced on or before the first day of May, 1921.

(3.) The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller, and shall be completed on or before the thirtieth day of September, 19 25.

(4.) The lands described in clause (g) hereof shall have been properly prepared for irrigation and shall have been irrigated beneficially from the said works on or before the thirtieth day of September, 19 25.

(5.)

(i.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(j.)

superseded by 5 Jan't Final Licence

(2.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

Issued this tenth day of November, 19 20.

No. 7372

Form No. 1008, W.R.B. (Licence in respect of Board Order)—1,500-1-23—504.

Copy for Supervisor

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply is Windermere Creek, a tributary of Windermere Lake.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date ~~for~~ from which the said licence shall take precedence is 23rd September, 1890.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 675 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 2½ acre-feet: Provided that where sources of supply other than ~~those~~ that named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the northerly portion of Lower Columbia Lake Indian Reserve (No.3 Kootenay) of which 270 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

7372

Board Order No.1604.

Copy to [illegible]

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 5,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ---------- acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ---------- and it may be stored (accumulated) in a reservoir at ---------- between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*c*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

PROVINCE OF BRITISH COLUMBIA. **WATER RIGHTS BRANCH.** DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters of Copby and Sams Creeks, tributaries of Windermere Lake and Datley Creek, tributary of Upper Columbia River, in the neighbourhood of Windermere, in the Windermere Water District.

NOW, on the 26th day of August, 1921, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 15-21-1) that a valid water record affecting the said claim was made under authority of an Act passed prior to the 12th day of March, 1909, and that under the said water record the Kootenay tribe or band of Indians was granted a right to take and use water from Copby and Sams Creeks, tributaries of Windermere Lake, and from Datley Creek, a tributary of Upper Columbia River, for irrigation and domestic purposes on the Lower Columbia Lake Indian Reserve, being Reserve No.3 of the said tribe or band.

7373

Form 188. W.R.B.—2,000-15-21. Order No. 1621.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(a.) The sources of the water supply are Sophy and Face Creeks, tributaries of Windermere Lake, and Cutler Creek, tributary of Upper Columbia River.

(b.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(c.) The date from which the said licence shall take precedence is

23rd September, 1896.

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (g) of this clause, until lawfully altered,

is 2900 acre-feet, and the maximum quantity

of water which may be used per annum on each acre actually irrigated until lawfully

altered is 2½ acre-feet: Provided that where

sources of supply other than those named in subclause (a) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (g) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(f.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(g.) The water may be used on the Lower Columbia Lake Indian Reserve (No.3 Kootenay) of which 1160

acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(h.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(i.) The execution of the said works shall be commenced or resumed on or before the first day

of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(j.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day

of November, 1930.

(k.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

7373

Board Order No.1621.

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 15,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ..... acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ..... and it may be stored (accumulated) in a reservoir at ..... between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

THE PROVINCE OF BRITISH COLUMBIA—WATER ACT

CONDITIONAL WATER LICENCE

The Honourable Minister of Indian and Northern Affairs of Ottawa, Ontario.

is hereby authorized to divert and use water as follows.

(a) The source of the water-supply is Madias Creek.

(b) The point of diversion is located as shown on the attached plan.

(c) The date from which this licence shall have precedence is 23rd September, 1896.

(d) The purpose for which the water is to be used is irrigation and domestic.

(e) The maximum quantity of water which may be diverted for irrigation purpose is 1,355 acre feet per annum and for domestic purpose is 7,000 gallons a day, and such additional quantity as the Engineer may from time to time determine should be allowed for losses.

(f) The period of the year during which the water may be used for irrigation purpose is 1st April to 30th September and for domestic purpose is the whole year.

(g) The land upon which the water is to be used and to which this licence is appurtenant is Lower Columbia Lake I.R. #3, Kootenay District, of which 542 acres may be irrigated.

(h) The works authorized to be constructed are diversion structure and pipe, which shall be located approximately as shown on the attached plan.

(i) The construction of the said works shall be commenced on or before the 30th day of June, 1982, and shall be completed and the water beneficially used on or before the 31st day of December, 1985.

(j) This licence is issued in substitution of Conditional Water Licence 7373, in part, under Sections 15 and 17 of the Water Act.

FINAL WATER LICENCE

(Irrigation)

WHEREAS SUPERINTENDENT-GENERAL of INDIAN AFFAIRS, whose address is Ottawa, Canada

is the owner of the lands to which Conditional Licence No. 5189 was made appurtenant, and is the applicant for this licence; and

Whereas satisfactory proof has been duly filed, and it has been shown to the satisfaction of the Comptroller that the terms of the said conditional licence have been complied with satisfactorily, and particularly that the works for the diversion and carriage of the water under the said licence have been completed and that beneficial use of the water has been made thereunder:

Now, therefore, in pursuance of the "Water Act," this final licence is issued, granting the licensee thereunder the right to take and use water under the following terms and conditions:—

(*a*.) The source of the water-supply is Lytle Lake,

a tributary of Columbia River.

(*b*.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria.

(*c*.) The date from which this licence and the right to take and use water thereunder shall take precedence is 4th June, 1920.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water which may be used at the place of use when all the lands mentioned in item (*g*) hereof are under irrigation is, until lawfully altered, 50 acre-feet per annum; and the maximum quantity which may be used per acre at the said place of use in any year is 2 acre-feet: Provided that if any records have been issued, or if any other licences have been or may hereafter be issued, for the use of water upon the said lands, the maximum quantity allowed under this licence shall be reduced by such quantities as may from time to time be used upon the said lands under such other records or licences, including the records or licences at present outstanding, namely, Licence No. - - - - from - - - -

is 50 acre-feet plus such reasonable allowance for evaporation and seepage as may be set by the District Engineer.

(f.) The period of the year during which the water may be used is

1st April to 30th September.

(g.) The area and description of the irrigable lands to which this licence shall be appurtenant, subject to beneficial use being made of the water in the irrigation of the said lands, are

25 acres, comprising part of Columbia Kootenay Indian Reserve No.3, situated to the south of S.L.131A of L. 4596, Kootenay.

: the extent and location of the said lands are further shown by cross-hatching in the said exhibit " A."

(h.) The works for the diversion and the carriage of the water consist of ditch & flume.

(i.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(j.) The nature and extent of the incidental use (if any) permitted under this licence are

None

but such use shall not enlarge the quantity of water allowed under item (c) above.

(k.) The diversion of the quantity of water permitted under this licence shall be limited to such rates of flow in the months of the irrigation season as may be determined, after hydrographic surveys, to be reasonable for the production of ordinary crops on the said lands, and the Comptroller may, after such surveys have been made, require the surrender of this licence and may amend the same by specifying therein such maximum rates of flow.

(l.) The terms and conditions of this licence shall replace those of the conditional licence hereinbefore referred to.

(m.)

Issued this 10th day of June, 1926.

PERMIT UNDER THE WATER ACT AUTHORIZING THE OCCUPATION OF CROWN LAND

The holder of Conditional Water Licence 61562, being Columbia Lake Indian Band at the date of issue of the said licence, whose licence authorizes the diversion of water from Madias Creek, is hereby authorized to occupy Crown Land by constructing, maintaining and operating thereon the works authorized under the said licences and any licences which may be issued in substitution thereof.

(a) The Crown Land which is authorized to be occupied under this permit is a portion of Sublot 123 of Lot 4596, Kootenay District, the location of which is shown approximately on the plan attached to the said water licence.

(b) The approximate dimensions of the Crown Land authorized to be occupied under this permit are 1,200 feet in length and 15 feet in width, having an area of 0.41 acre.

(c) The permittee may cut and remove from the said Crown Land any timber necessary to permit construction and maintenance of the said works. Prior to the cutting, destruction or flooding of any timber, the permittee shall apply for and obtain a licence to cut timber from the District Manager and the amount of stumpage, royalty and (or) compensation payable to the Crown in respect of trees, including merchantable or young growth, cut, removed, damaged, or destroyed by the permittee, shall be the sum or sums fixed by the Forest Service of the Province of British Columbia.

(d) This permit is appurtenant to the land, mine or undertaking to which the aforesaid water licence is appurtenant.

(e) This permit shall become void if the water licence with respect to which the permit is issued should terminate, be abandoned or cancelled, or amended so as to render this permit unnecessary.

(f) This permit is issued and accepted on the understanding that the permittee shall indemnify and save harmless the Government of the Province of British Columbia for all loss, damage to works, cost or expense suffered by the permittee by reason of the Crown Land or any portion thereof being submerged or damaged by erosion or otherwise affected by flooding.

(g) The holder of this permit shall not be entitled to compensation if the Crown grants permits to other persons to occupy the land affected by this permit.

(h) In the event of a dispute at any time with respect to the area or boundaries of the land affected by this permit, the holder shall, at his own expense, have the said land surveyed by a duly qualified surveyor.

(i) The annual rental for this permit is $4.00, which is subject to review and revision at any time at the discretion of the Crown.
